

WORD GIRDLE™: Word Placement Rules

- There may never be more than 7 words in The Girdle.
- Each word in The Girdle must be 2 to 7 letters in length.
- Words are read orthogonally from left to right and top to bottom.
- Each word must be scored immediately after it is placed.
- Words 2 to 7 must use at least one letter from another word already in The Girdle.
- During a turn, letters may only be placed where they will create NEW words; eg. an 'S' may NOT be added to the end of a word to lengthen it during a later turn, BUT and 'S' could be placed next to a letter such as 'I' or 'U' in another word to create a NEW word such as 'IS' or 'US'.
- Words must be valid according to a published print or online dictionary.
